## Intersurgical EcoLite™ pediatric mask range

### Welcome to the Comfort Zone

The unique design and materials used to manufacture the Intersurgical EcoLite mask provides improved patient comfort and a reduced environmental impact.

### Comfortable for the Patient

Improved patient comfort has been key to the development of the Intersurgical EcoLite mask. The latest manufacturing technology has enabled us to combine two non-PVC materials in the same product, the polypropylene material forming the body of the Intersurgical EcoLite mask is clear, lightweight and rigid enough to maintain the mask's shape, while the second softer TPE material is utilized in the seal, which is in contact with the patient's face.

### Comfortable for the Environment

The Intersurgical EcoLite mask is an important part of our Eco range, designed as part of our ongoing focus on sustainable development. Various groups have questioned the use of PVC in medical products and its impact on the environment. The utilization of alternative materials has resulted in the elimination of PVC from the Intersurgical EcoLite mask body and seal, reducing the environmental impact.

### Incurved nose seal

Improving the fit and eliminating the need for a separate nose clip. Designed to minimize the risk of oxygen entering the patient's eyes

### Soft face seal

For improved patient comfort

### A choice of "under chin" or "on-chin" positions

Designed to fit on a wide range of patient faces

### Lighter

Mask made with lightweight materials

### Greener

The elimination of PVC from the masks has lowered their environmental impact

The shape and position of the exhalation ports have been designed to minimize the amount of rebreathed carbon dioxide

The material forming the body of the mask is clear, permitting visualization of the patient's nose and lips. It is also rigid enough to maintain the mask's shape during transportation and use

Available with oxygen tubing featuring a universal connector, which can be attached to a 6mm flow meter spigot or fitted directly onto a 9/16-18 UNF Diameter Index Safety System (D.I.S.S.) flow meter

## Pediatric medium concentration oxygen mask

The Intersurgical EcoLite pediatric medium concentration oxygen mask is extremely lightweight, and comfortable.
