

## Nasal Cannula

A range of cannula for adults, pediatrics and neonates

# Nasal Cannula

Intersurgical is pleased to offer a complete range of nasal cannula. This comprehensive range is entirely latex-free and includes designs suitable for use with adults, pediatrics and neonates.

## Choice of options

Product choices are available to suit neonatal, pediatric and adult patients. The following prong shapes are also available:

- Curved
- Flared
- Curved/Flared
- Straight

All oxygen tubing in the range is manufactured in a 'multi-channel' design, which permits oxygen flow even if the tubing is 'kinked'.

## Now available with ear guards

Ear guards, an additional comfort benefit, are pre-attached to the cannula and designed for patient satisfaction.

**Curved prongs:**  
Improved anatomical fit

**Flared prongs:**  
Slows down the flow of oxygen

**Curved / Flared prongs:**  
Combines the benefits of both the above designs

**Straight prongs**

## Features and Benefits

### Multi-Channel oxygen tubing

Allows oxygen to continue to flow if the tubing becomes kinked

### Latex free

Suitable for patients with latex allergy

### Over-ear design

Secure positioning  
(Ear guards available for added comfort)

### Non-slip toggle

Enables user to adjust for best possible fit

### Clear material

Unobtrusive

### Soft prongs

Minimize irritation

### Location saddle

Assists in the optimum positioning of the prongs

### Adult headset version

Ideal for domiciliary use
